Transforming Community Health through Leadership

John W. Moran, Public Health Foundation, Washington DC, USA

Community health improvement organizations are increasingly partnering and forming coalitions with local hospitals, working together to improve traditional medical care. But with the pace of change in healthcare policy, these coalitions must be thoughtfully lead and managed. This new book from John W. Moran of the Public Health Foundation, demonstrates how to build, operate, manage, and sustain a community health improvement coalition once it is formed. Offering practical examples and guidance on forming and sustaining a community health coalition, this book demonstrates the ways in which the success of a coalition depends upon a stable anchor organization and a committed leader.
